

## Handleiding wachtwoord plaatsen op een map in Plesk 12

Deze handleiding beschrijft hoe u een wachtwoord kunt plaatsen op een map. Wachtwoord beveiliging op een map is bruikbaar als u alleen een beperkte hoeveelheid website bezoekers toegang wilt geven via een login pop up venster.

Versie 1.0

### Inhoud

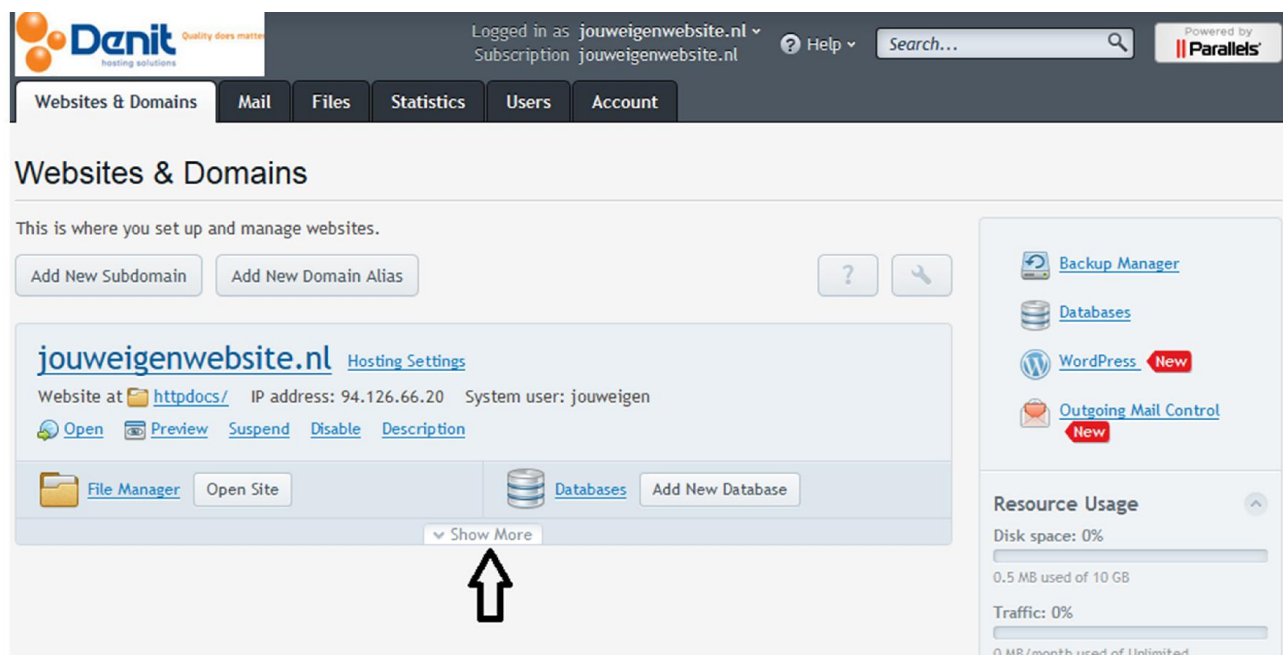

Wachtwoord mappen wijzigen.....	2
Toevoegen van nieuwe map met wachtwoord.....	3

## Wachtwoord mappen wijzigen

1)

Wanneer u bent ingelogd in Plesk klikt u onder het tabblad websites & domains op 'show more'

Websites & Domains > [jouweigenwebsite.nl](#) > [Password protected directories](#) > [/jouweigen2](#) >

### Password for the protected directory user jouweigenwebsite.nl [Up Level](#)

Protected directory user

Old password \*\*\*\*\*

New password \*  Very weak (?)

Confirm password \*

\* Required fields

5)

Klik vervolgens onderaan op *OK* om het wachtwoord op te slaan.

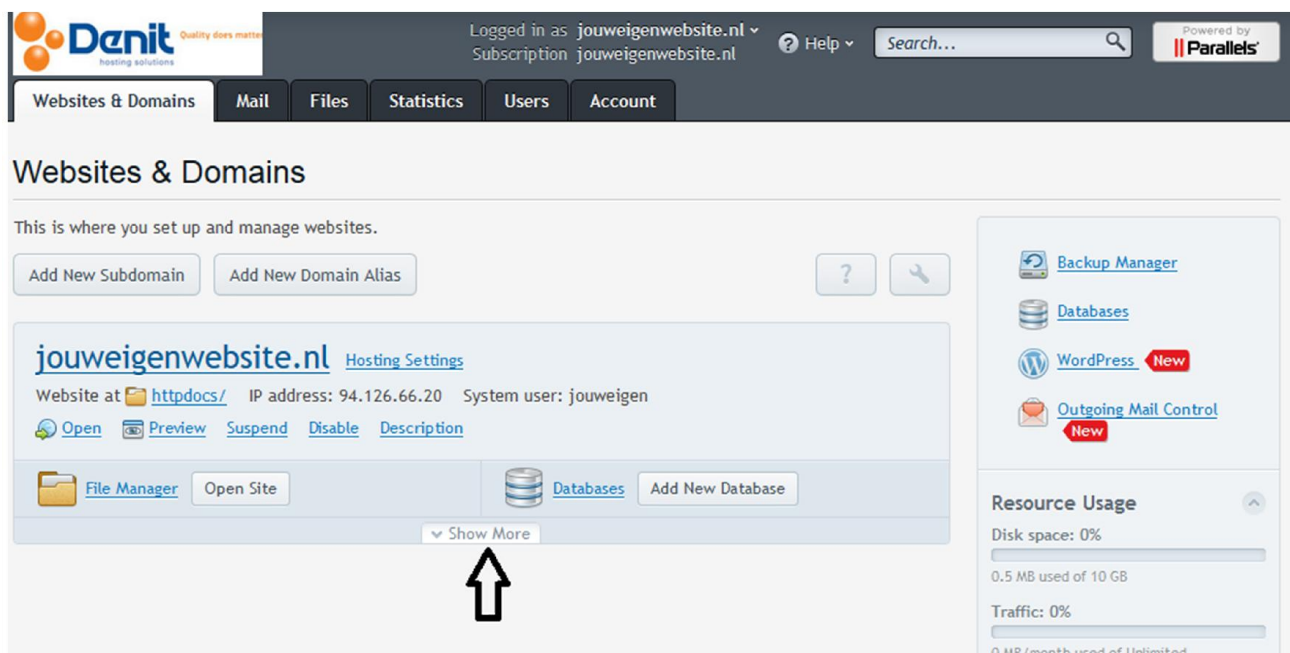

6)

Vervolgens klikt u op het tabblad *'websites & domains'* om weer naar het hoofdmenu te gaan.

## Toevoegen van nieuwe map met wachtwoord

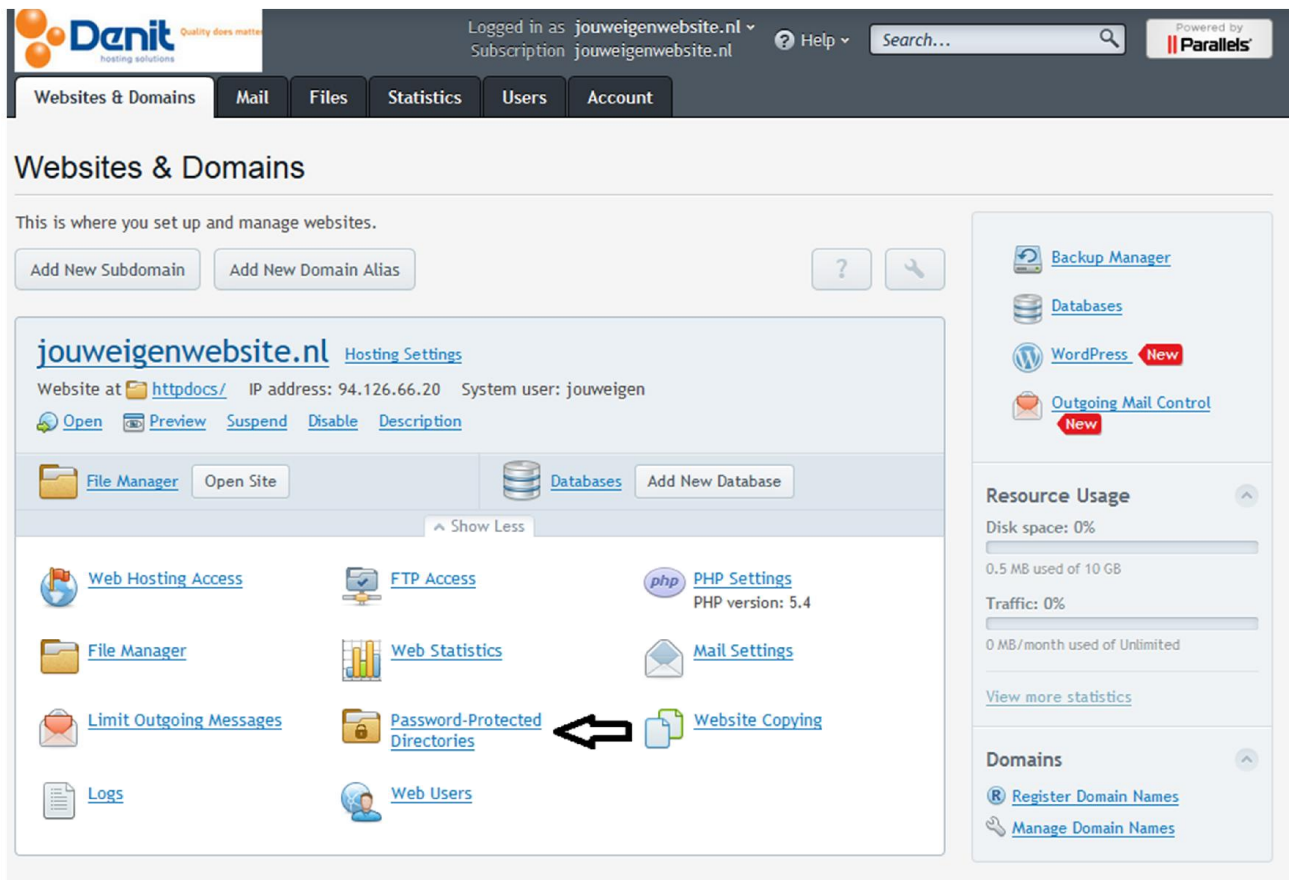

1)

Wanneer u bent ingelogd in Plesk klikt u op *'Show More'*

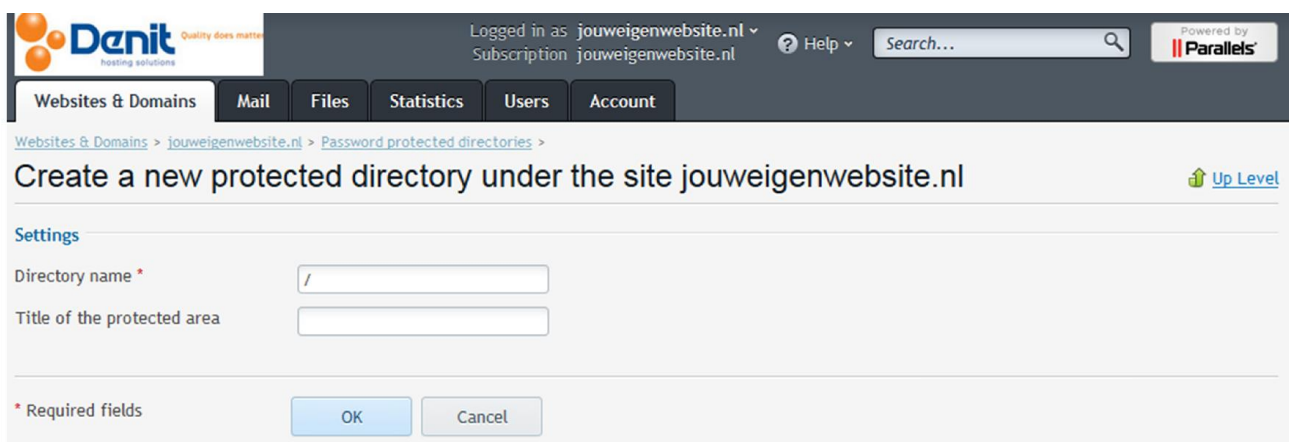

2)

Kies vervolgens voor *'password-protected directories'*.

The screenshot shows the Denit control panel for 'jouweigenwebsite.nl'. The 'Websites & Domains' section is active. A grid of icons for various services is displayed, including 'Web Hosting Access', 'FTP Access', 'PHP Settings', 'File Manager', 'Web Statistics', 'Mail Settings', 'Limit Outgoing Messages', 'Password Protected Directories', and 'Website Copying'. A black arrow points to the 'Password Protected Directories' icon. Other visible elements include 'Add New Subdomain', 'Add New Domain Alias', 'Backup Manager', 'Databases', 'WordPress', and 'Outgoing Mail Control'.

3)  
Klik op het icoon 'add protected directory'.

The screenshot shows the 'Create a new protected directory under the site jouweigenwebsite.nl' form. The 'Settings' section contains two input fields: 'Directory name' with a slash '/' and 'Title of the protected area'. Below the fields are 'OK' and 'Cancel' buttons. The breadcrumb trail at the top reads 'Websites & Domains > jouweigenwebsite.nl > Password protected directories >'. A 'Up Level' link is visible in the top right corner.

4)  
Vul in het veld 'directory name' de nieuwe map naam in om aan te maken in de map httpdocs.

5)  
Klik vervolgens onderaan op OK

6)

Selecteer de zojuist aangemaakte map en klik vervolgens op 'add new user'
