

Handleiding Webusers aanmaken binnen Plesk 11

Deze handleiding beschrijft de stappen die u dient te nemen om webusers aan te kunnen maken binnen uw Plesk 11 omgeving.

Inhoud

Webusers aanmaken	2
-------------------------	---

Webusers aanmaken

- 1) Login op uw Plesk omgeving met de daarvoor bestemde inloggegevens welke u bij de oplevering van het webhosting pakket ontvangen heeft. Klik vervolgens op het tabblad 'Websites & Domains'

The screenshot shows the Denit Plesk control panel interface. At the top, there's a navigation bar with tabs: Home, Users, Websites & Domains (selected), Mail, Statistics, and Account. The main content area is titled 'Websites & Domains' and contains several tool icons and links: File Manager, Web Statistics, FTP Access, Backup Manager, Web Hosting Access, and Databases. At the bottom left, there is a link 'Show Advanced Operations' with a plus icon.

- 2) Klik vervolgens op het + teken bij 'Show advanced operations'

- 3) Daarna dient u te klikken op 'Web users'. Waarna u uitkomt op onderstaande pagina

The screenshot shows the 'Web users of domain' page in the Denit Plesk control panel. The page title is 'Web users of domain jouweigenwebsite.nl'. Below the title, there's a description of web users and a 'Tools' section with two icons: 'Add New Web User' and 'Settings'. At the bottom, there's a section titled 'Web users' which currently shows 'No Web users'.

- 4) Klik op het icoon 'Add New Web User'

U komt dan uit op onderstaande pagina

The screenshot shows the Denit control panel interface. At the top, there's a navigation bar with 'Home', 'Users', 'Websites & Domains', 'Mail', 'Statistics', and 'Account'. The 'Users' tab is active. Below the navigation bar, the page title is 'Add new web user of domain jouweigenwebsite.nl'. The form is titled 'Web user' and contains the following fields and options:

- Username for connecting to the server over FTP ***: A text input field containing 'nieuwe_site'.
- Old password**: A dropdown menu set to 'None'.
- New password ***: A text input field with masked characters (dots). To its right is a strength indicator showing 'Strong' in green.
- Confirm password ***: A text input field for re-entering the password.
- SSI support**: A checkbox that is unchecked.
- PHP support**: A checkbox that is checked.
- CGI support**: A checkbox that is unchecked.
- Perl support**: A checkbox that is unchecked.
- Python support**: A checkbox that is unchecked.

At the bottom of the form are two buttons: 'OK' and 'Cancel'.

- 5) Vul bij 'Username for connecting to the server over FTP' de door u gewenste FTP username in
- 6) Achter 'New password' vult u het wachtwoord in welke de nieuwe user moet krijgen en vul deze vervolgens ook weer in achter 'Confirm password'
- 7) Klik daarna op 'OK'

De User is aangemaakt en kan in gebruik genomen worden. Klik op 'Home' om weer terug te keren naar het hoofdmenu.
