

Handleiding gebruikers rollen aanmaken in Plesk 11

Deze handleiding beschrijft hoe u extra Plesk gebruikers rollen kunt aanmaken binnen uw Plesk omgeving.

Inhoud

Gebruikers rollen aanmaken	2
----------------------------	---

Gebruikers rollen aanmaken

1) Login in uw Plesk omgeving met de daarvoor bestemde inloggegevens welke u bij de oplevering van het pakket ontvangen heeft. Klik vervolgens op het tabblad 'Users'

Se Denit			Logged in as Subscription	jouweigenwebsite.nl + jouweigenwebsite.nl	🕜 Help 🗸	Search	٩	Parallels	
Home	Users	Websites & Domains	Mail	Statistics	Account				

2) Klik daarna op het tabblad 'User Roles'

	Logged in as jouweigenwebsite.nl - Subscription jouweigenwebsite.nl	? Help - Search	Powered by
Home Users Websites & Domains Mail	Statistics Account		
User Accounts User Accounts User Roles			
If you want to allow other users to access the Panel for r create user accounts.	nanaging websites, installed applications,	, or use e-mail services ur	der your domains, then you need to
🔓 Create User Account 🏦 Remove			۹ 🕑
1 items total Create a new user account.		Nu	mber of entries per page: 10 25 100 All
Contact name 🔺	E-mail address		Role
jouweigenwebsite.nl	jouw@eigenemailadres.nl		Owner
1 items total		Nu	mber of entries per page: 10 25 100 All

3) Klik op 'Create user roles'

	Logged in as jouweigenwebsite.nl ~ Subscription jouweigenwebsite.nl	😧 Help 🗸 🛛 Searc	ch ९	Powered by

User Roles User Accounts User Roles				
Assign roles to users to give them access to apps and ser your own custom roles.	rvices hosted on your account. There ar	e several predefined	user roles. You can modify th	em or create
😪 Create User Role 🕴 🋗 Remove				
4 items total			Number of entries per pag	e: 10 25 100 All
Role name A				Users
Accountant				0
Application User				0
Owner				1
WebMaster				0
4 items total			Number of entries per pag	e: 10 25 100 All

U krijgt dan vervolgens onderstaande pagina te zien:

Create User Role

Define access to installed apps or Panel services for all users with this role. If you grant a user access to an app, the app will become available to them in Control Panel.

General				
User role name *	vakanite melder rol			
Access to Panel services				
Manage users and roles	Granted	Denied		
Create and manage sites	─ Granted	Denied		
Configure spam filter	Granted	Denied		
Create and manage databases	Granted	Denied		
Configure and perform data backup and restoration	O Granted	Denied		
View statistics	Granted	Denied		
Install and manage applications	Granted	Denied		
Design sites in Web Presence Builder	O Granted	Denied		
Upload and manage files	Granted	Denied		
Create and manage additional FTP accounts	O Granted	Denied		
Create and manage mail accounts	Granted	O Denied		
Create and manage mailing lists	─ Granted	Denied		
* Required fields	ОК	Cancel		

- 4) Geef bij 'User role name' een omschrijving van de gebruiker rol op, laat de 'Access to Panel services' zoals in bovenstaand voorbeeld staan en wijzig zo waar nodig
- 5) Klik vervolgens onderin de pagina op 'Ok' en de gebruikers rol is aangemaakt
- 6) Klik op het tabblad 'Home' om weer terug te keren in het hoofdmenu
